Subject: Price Increase for Poly-Alloy Fittings; Effective September 16th, 2018

Dear Valued Customer,

As a result of the recently imposed tariffs on certain imported products, we have no choice other than increase our selling prices on Plastic PEX and Plastic Cold Expansion fittings by 25%, effective September 16th, 2018.

Cold Expansion ring prices are not being increased at this time.

BMI will accept orders until that date for items currently available from stock. Regrettably, we will not accept back-orders.

You may retrieve your new price sheets by clicking on the link below:

[BMI USA Poly-Alloy \(PPSU\) Cold Expansion - F1960 Fittings](#)

Thank you for your understanding and continued support.

Best Regards,

Mike Lavoie
Vice President – Business Development
